Hi Lorraine,

I think this is the chemical information Mr. Ex. 6 - Personal Privacy is looking for.

I'm going to ask that the OSC put it on the

www.epaosc.org/CharlestonWVChemicalLeak website.

Please feel free to direct interested callers to this website. It is a technical site (not that user-friendly) but will be populated with status reports, maps and other technical documents for the site.

Thanks

Trish.

Subject: Incoming Call - Ex. 6 - Personal Privacy

Hello Trish,

The caller Ex. 6 - Personal Privacy is a chemist but said he has a concern for a relative who resides in WV. We may be getting calls from Ohio on the incident due to this recent article. <http://www.cincinnati-oh.gov/water/news/west-virginia-chemical-spill/>

He is looking for MSDS on 4-methylcyclohexane methanol (methl-cyclohexane methanol).

Ex. 6 - Personal Privacy

Best Regards,

Lorraine Stipp
